

## *Testimonials*

"This is truly not a typical vampiric read and I wish I could give it more than five stars. I can't wait for the release of the second book and I applaud this author's ingenuity." **The Voluptuous Book Diva**

"I was so fascinated by the premise that I couldn't stop reading. The pacing was strong and steady from beginning to end. I simultaneously couldn't wait to see what she would do next and desperately didn't want this tale to end." **LAS Reviewer**

"I love all the characters we were introduced to, the main and minor characters, and I'm impressed that I liked the minor characters as much as I loved the main characters. The plot was fantastic, the writing is brilliant, and I can say with all honesty that I can't wait until the next book!" **Top Amazon Reviewer**

"[Sands of Time] thankfully lacks the teen angst of Stephanie Meyers' Twilight series and has much better writing than what I've read in those and related supernatural romance books about vampires." **Meribast**

"Above and beyond conventional vampire stories...The writing style is unusual and interesting...Sands of Time does not drag its way into boredom. The story is compelling enough to keep the reader turning the pages." **Lex Allen, Reader's Favorite**

"Sands of Time is a unique, perhaps even moralistic take on the dilemma of being a blood drinker and is well worth checking out." **Un-Ravelle'd Book Reviews**

"I found the characters in Sands of Time to be believable, real and each motivated by their own truths. I genuinely cared about them all, including Yin (wait till you meet him) and could see why they behaved in the way that they did." **Fiona Tate**

"Kesi has a really good narrative voice and tells the story well. I look forward to reading the rest of the series. I came over all patriotic and William Wallace-like when Kesi and Yin's progeny live in Paisley, Scotland for a while." **Pamela Scott, UK**

"From the moment I picked up this book to read, I was unable to put it down." **Amazon Customer**

"I love the front cover, the mysterious topics in there, and the writing style." **Vincent, Amazon Customer**
